

FY 2011 Master Fee Schedule

Finance Director: Debra Auker

City of Hayward Master Fee Schedule

Introduction

The Master Fee Schedule Resolution reports fees for services that are provided to our citizens. Fees that do not recover the full cost of providing the service result in a subsidy which shift funds away from the critical, high priority needs of job creation, public safety initiatives, utility services, and neighborhood programs.

Before a fee increase was considered the Department responsible for the service demonstrated that the services are being provided as efficiently and effectively as possible. There are a minimal number of fees that were considered for an increase in this year's amendment. For these fees, each respective department demonstrated that services are provided in a best practices manner, and that all reasonable opportunities for savings have been exhausted. As a result of this critical analysis, only fees for new programs or services have been added. Additionally, other fees have been lowered, deleted, or to clarify actual fees charged for services.

For the purposes of calculating non-residential sewer connection fees, carbonaceous biochemical oxygen demand (CBOD) and suspended solids (SS) will be reduced by 50% of the estimated values in the actual discharge, but not lower than the CBOD and SS for domestic wastewater, that is, 270 milligrams per liter and 250 milligrams per liter respectively. The property will be entitled to discharge CBOD and SS concentrations commensurate with the estimated actual concentration. The volume component will not be reduced and will be calculated at 100% of the estimated discharge. This provision will be in effect only from October 1, 2009 through September 30, 2011.
